## SUMMARY

3rd-year Computer Science & Engineering student building full-stack web applications (HTML, CSS, Bootstrap, JavaScript, PHP, SQL, React) and data analytics solutions with Power BI and Python. Ships practical, working software and picks up new tools fast.

## EDUCATION

**B.Tech, Computer Science & Engineering** 2024 - 2028  
Uttaranchal University  
**Relevant Coursework:** Design and Analysis of Algorithms (DAA), Discrete Mathematics, Object-Oriented Programming, Database Management Systems

## SKILLS

**Web Development:** HTML, CSS, Bootstrap, JavaScript, React  
**Data & Backend:** PHP, SQL (MySQL), Python, Power BI (DAX)

## EXPERIENCE

**Python Developer Intern — Codec Technologies Pvt. Ltd.** Jun 2025 - Jul 2025  
1-month internship, AICTE & ICAC approved, via the National Internship Portal

- Built three Python mini-projects applying object-oriented programming and file handling: a CLI calculator, a password generator, and a contact book (github.com/Frosty-zod).
- Completed the program under a Google for Education partner organization.

## PROJECTS

**Sales Analytics Dashboard**  
Power BI, DAX

- Built a Flipkart-style sales dashboard on a 9,800-record Kaggle Superstore dataset spanning 2015–2018 across 49 U.S. states.
- Designed custom DAX measures and KPI cards to track \$2.26M in total sales by category, region, and time period.

## CERTIFICATIONS

**Power BI for Beginners** — Aug 2026 — Certificate #10607920  
**Introduction to Generative AI** — Jul 2026 — Certificate #10445680
